

Kettlefoot 3/16/2023 "Belly" Match

5 Stages - 60 Rounds Maximum

Targets are will be scored in 1 of two ways:

Shots to get 1 hit (Xs/1h) - Shooter is given X shots to get 1 hit. Misses from the shots given result in less points. For example: if a target is 3 shots for 1 hit, then if the shooter hits on the first shot they get 3 points. Second shot, 2 points. 3rd shot, 1 point. No hits, no point. Target only gets hit once before moving onto the next.

X shots for X hits (Xs/Xh) - Shooter is given X shots to get X hits. Each hit is worth 1 point. For example: if it is 5 shots for 5 hits (5s/5h), then the shooter takes 5 shots at the same target or target rack and gets 1 point for each hit made.

Distances provided are in yards and Horizontally Compensated ranges, not true line of sight.

Stage 1
